

Earlier this year I undertook the Post Graduate Certificate in Cardiac Rehabilitation in NUI Galway. For me, an advantage of this course was that it was online as I live in Wicklow, but the disadvantage was the cost. Being awarded the INCA Education Bursary was invaluable in helping towards paying my college fees. The course itself was excellent; I loved the learning and the online engagement. The course assisted me to further my career and secure an Integrated Care role as a CNSp in Cardiovascular Disease.

I am so grateful to INCA for providing this opportunity.
